Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application contains inventions drawn to patentably distinct species. Applicant is required under 35 US 121 (1) to elect a single disclosed species to which claims would be restricted if no generic claim is finally held to be allowable and (2) to list all claims readable thereon including those subsequently added.

2. Applicant is required to:

Elect a method comprising a subject with an insulin-related disorder, or a subject with an insulin-related disorder and a co-existing condition characterized by unwanted cellular proliferation.

Further, Applicant is required to elect a specific insulin related disorder, such as one of those listed in claim 3.

Further, Applicant is required to elect a method further comprising monitoring for improvement in an indicator of diabetes, or a method not comprising said monitoring. If a method further comprising monitoring is elected, Applicant **must also elect a specific diabetes indicator**, such as one of those listed in claims 10-11,

Further, Applicant is required to elect a method comprising administering an antibody specific for PSMA alone, or an antibody specific for PSMA in combination with an agent. If administering a PSMA antibody in combination with an agent is elected, Applicant **must also elect a specific agent**, such as one of those listed in claim 12 or 16-17,

Further, Applicant is required to indicate which claims read on the elected species, including any claims subsequently added. Currently claims 1 and 7 are generic.

The species of insulin related disorder are distinct conditions. For example, hyperglycemia is associated with elevated levels of blood glucose, while hypoglycemia is associated with reduced levels of blood glucose. Furthermore, the agents listed in claims 12 and 16-17 are distinct due to their different physiochemical properties. Additionally, the species of methods are distinct due to their different method steps, reagents, and patient groups.

Art Unit: 1644

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Amy E. Juedes whose telephone number is 571-272-4471. The examiner can normally be reached on 8am - 5pm from Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on 571-272-0841. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
